Chapter 1 - Dematerialisation and Rematerialisation

1. Any BO must inform the Participant of the details of the certificate of security which is to be dematerialised and must surrender the same to the Participant. The Participant then shall forward such details to NSDL. After receiving the relevant information from the Issuer, NSDL will enter the name of the person who has surrendered the certificate in its records, as the BO in its records and send an intimation to the Participant.¹
2. The following securities are eligible for dematerialisation:²
 - (a) shares, scrips, stocks, bonds, debentures, debenture stock, Indian Depository Receipts, Electronic Gold Receipt or other marketable securities of a like nature in or of any incorporated company or other body corporate;

- (d) The Issuer or its RTA shall verify the validity of the security certificates or the Letter of Confirmation (as the case may be)⁸ as well as the fact that the DRF has been made by the person recorded as a member in its Register of Members.⁹

The 'Letter of Confirmation' shall remain valid for a period of 120 days from the date of its issuance, within which the securities holder/claimant shall make a request to the Participant for dematerializing the said securities¹⁰. Participants must forward additional details of the client such as address and contact details of the client, status of the account, type and subtype of the account, PAN of all the holders and the bank account details captured in the demat account so as to assist the Issuers/RTA to carry out due diligence while processing the dematerialisation requests. Participants must enclose a duly certified Client Master Report printed either from the DPM system or from Participant's back-office system; or a covering letter generated from the DPM system or from Participant's back-office system which incorporates the aforesaid details along with the DRF Form while forwarding the demat requests.¹¹

- (m) The securities which have been dematerialised shall be credited to the accounts maintained by a Participant only when the pattern of holdings in the account of the Client matches with the pattern of holdings as per the security certificates.

Provided however that in case where the names appearing on the certificates match with the names in which the account has been opened but are in a different order, the Client can get the security certificates dematerialised by submitting the security certificates alongwith the Transposition Form and the Dematerialisation Request Form (DRF) to the Participant.

- (n) In the case of securities which have been submitted for dematerialisation for which any objection memo has been received from the Issuer or its RTA, the Participant shall facilitate the correction of such objections on a timely basis.
- (o) The Issuers / R&T Agents are advised that the DRFs containing facsimile signature of the participant be accepted as good for dematerialisation.¹²
- (p) Every company shall appoint the same registrars and share transfer agents for both the depositories.
- (q) The registrars and share transfer agents shall accept partial dematerialisation requests and will not reject or send back the complete lot of dematerialisation request to the DPs in cases where only a part of the request was to be rejected.

- (b) On the Issuer or its RTA intimating to the Depository in the manner specified,¹⁵ the Issuer or its RTA shall return the DRF along with the relevant security certificates or letter of confirmation (as the case may be)¹⁶ unless the reasons for such rejections are:-

 - (iv) in the event of an order from a court or a competent statutory authority prohibiting the transfer of such securities or;
 - (v) in case duplicate certificates have been issued in respect of the securities with the same distinctive numbers.¹⁸
- (c) It is recommended that Issuers print the ISIN number(s) allotted by the depository on the security certificates. Printing the ISIN number(s) on the security certificates would ensure that the demat requests are generated under the correct ISIN number by the Depository Participants (DPs). This is also very useful for the corporates at the time of processing the dematerialisation requests, especially when different types of securities having different ISIN numbers are admitted in the depository.¹⁹
- (d) Demat request forms (DRFs) and the certificates do not reach the Registrar within 30 days from the date of electronic request, such requests should be rejected.²⁰
- (e) In case where there are pending court cases in respect of shares for which demat requests have been received, such requests should be rejected within 30 days
