August 10, 2023

LAUNCH OF WEBCDAS CDAS NEW PLATFORM

In view of continuous effort to upgrade our systems and enhance user experience, CDSL is pleased to inform you that CDSL has released upgraded version of various module in phased manner. Currently both platforms are functional and working in parallel, wherein two separate icons are visible in RELID application.

DPs/RTAs users are requested to start using new icon (CDSL-NEW) made visible post their RELID login., Further note that the old icon shall be discontinued shortly, and the date of discontinuation will be intimated separately.

Users are requested to kindly note following pointers:

- 1. Silver Light components can be uninstalled from Current Setups once all operations are successfully carried out using new platform.
- 2. Users can now make Chrome and Edge as default browsers, and use of internet explorer can be discontinued.
- 3. Windows OS 10 and above can be used for accessing WEBCDAS application.
- 4. Users using Google Chrome browser are requested to refer Annexure A which shall help to configure Reports module. Please ensure that domain user is given Administrator rights at the time of installation / configuring Report Module.
- 5. The DP shall ensure that "Acrobat Reader Software" and a suitable Anti-Virus Software should be installed at the work- stations where CDAS application would be used.

The DPs / RTAs should inform CDSL, if any loss or failure of connectivity between DPs / RTAs and CDSL. In case of interruption of Depository Services at the DP, the respective DP should lodge their request for contingency arrangements at CDSL helpdesk.

DPs / RTAs are advised to note the above-mentioned system changes and start using new icon (CDSL-NEW).
